Cataract and Refractive Lens Exchange Questionnaire

The term “cataract” refers to a cloudy lens within the eye. When a cataract is removed, an artificial lens is placed inside the eye to take the place of the human lens that has become the cataract. Occasionally, clear lenses that have not yet developed cataracts are removed to reduce or eliminate the need for glasses or contacts. This questionnaire will assist us in providing the treatment best suited for your visual needs if it is determined that surgery is appropriate for you. It is important that many patients still need to wear glasses for some activities after surgery. Please fill this form out completely and give it to the doctor. If you have questions, please let us know and we will assist you with this form.

1. Are you interested in seeing well at distance without glasses after surgery?
   ___ Prefer no distance glasses. ___ Not important to me. I wouldn’t mind wearing distance glasses.

2. Are you interested in seeing well at near without glasses after surgery?
   ___ Prefer no reading glasses. ___ Not important to me. I wouldn’t mind wearing reading glasses.

3. Zones of Vision:

   We divide vision into 5 “Zones of Vision”

   Near  Zone 1  Zone 2  Zone 3  Zone 4  Zone 5  Far
   (12-20 in) (2-4 ft) (6-20 ft) (20-100 ft) (100 ft+)
   Newsprint  Headlines  Indoors  Day-far  Night-far
   Phone Book  Computer  TV  Driving  Night Driving
   Maps  Menus  Cooking  Golf  Movies
   Sewing  Price tags  Cleaning  Road Signs  Star Gazing

   Which group of “Zones of Vision” is the most important group to you? Please choose only one of the following three options of Group A, B, or C:

   ___ Group A: Zones 1, 2, and 3. ___ Group B: Zones 2, 3, and 4. ___ Group C: Zones 3, 4, and 5.

4. If you had to wear glasses after surgery for one activity, for which activity would you be most willing to use glasses? ___ Reading fine print ___ Computer ___ Driving

5. If you could have good distance vision during the day without glasses, and good near vision for reading without glasses, but the compromise was that you might see some halos around lights at night, would you like that option? ___ Yes ___ No

6. If you could have good distance vision during the day and night without glasses, and good computer-distance (Zone 2) vision without glasses, but the compromise was that you might need glasses for reading the finest print at near, would you like that option? ___ Yes ___ No

7. Please place an “X” on the following scale to describe your personality as best you can:

   [ --------------------------------------------------------- I --------------------------------------------------------- ]
   Easy going Perfectionist
